

## Work Seat WS01

### Product Description

WS01 is a work seat by At Height. It has a moulded stainless steel frame covered with comfortable padding for prolonged use in suspension. Two metal side dee rings are incorporated with a WLL of 50kg each and a webbing loop is included underneath the seat with a WLL of 30kg. This work seat is not PPE but it is individually serial numbered for easy traceability, printed on a waterproof label.
