A Manufacturers identification
B Product Code
C Working Load Limit
D Year of Manufacture, Batch Number, Serial Number (e.g. 200100001)
E Book Pictogram - reminder that the end user should read and understand the supplied user instructions.

WARNING!
Working at height and related activities are inherently dangerous. It is the responsibility of any person using this equipment to learn, understand and practice the proper techniques for use of the equipment for its designated purposes. It is impossible for this document to cover every eventuality and incorrect use of this equipment may result in fatal consequences. This equipment should only be used by a competent person or a person specifically trained in its use. This equipment should not be used by persons with medical conditions that may affect the safety of the user. You are responsible for your own actions and any person using this equipment assumes all risks and full responsibility for all damages or injury which may result from the use of it. No responsibility will be accepted by At Height Ltd for damage, injury or death resulting from misuse. It is impossible in this booklet to cover all methods of use. The following instructions and pictograms show some of the common correct and incorrect methods of use; it is impossible to predict them all. There is no substitute for instruction by a trained and competent person. It is essential that a risk assessment is carried out prior to any use and a rescue plan shall be in place to deal with any emergencies that could arise during the work. If this product is resold outside the original country of destination the reseller should provide these instructions for use in the language of the country in which the product is sold.

Loading & Operating Temperature
WS01 Weight Limit:
- Metal-side Dee Ring is 50kg
- Lower Webbing Loop is 30kg

Lifespan
WS01 Work Seat has a lifespan of 10 years from first use. Damage can occur during the first use, which can limit the lifetime of this product only to this first use. Pay attention to products, which are subject to wear or infrequent contact with abrasive surfaces (e.g. lanyards, sewn slings, fall absorbers).

The user shall check the product:
1 Before and after each use,
2 During use (during use if in a harsh working environment).

Check for:
Fabric: Cuts, tears, abrasion and damage caused by use and ageing, heat or chemicals and so on.
Stitching: Cut, torn, worn or loose threads.
The metal components: Proper function of the buckles and other metal components.
Product Label: Readability of the product labels. We recommend recording the inspection results. To prolong the life of this product, care in use is necessary. Avoid contact with abrasive surfaces or sharp edges.

Use
WS01 Work Seat is not Personal Protective Equipment. Use with a harness only (according to international standards).

Misuse
Do not use the WS01 Work Seat without a harness, which must conform to relevant standards.

Cleaning, Storage and Transport
This equipment must not be marked, modified or repaired by the user. Note: This equipment is not user maintainable with the exception of the following:
Cleaning: if required clean with a mild household detergent and rinse in clean water. Thoroughly rinse and dry naturally in a warm ventilated room away from direct heat. Important: Cleaning is recommended after every use in a marine environment.
Storage and transport: this product should be stored in a clean, dry environment free from chemicals or corrosives and away from excessive heat or high humidity.

EZyID Compatibility
Where products are EZyID enabled it means they can be or are fitted with a highly robust RFID tag which contains a unique serial number that is permanently associated with the product. This makes ongoing identification of the product easier and could significantly increase its lifespan.

Product Code
xxxx/EZYID = EZyID Enabled
